

All Day TMJ Pain Relief

Cerezen™ ear canal inserts can relieve TMJ pain all day by supporting the temporomandibular joint without interfering with eating or talking.

- Effectively reduces TMJ pain
- Ideal for daytime use
- No effect on eating or talking
- Easy to remove and re-insert
- Comfortable and discreet
- Customized for each ear canal

WARNINGS AND PRECAUTIONS:

During a three-month clinical study, patients wearing Cerezen™ inserts did not report any unexpected or serious adverse events and a comparable safety profile to the stabilization splint was observed. It is not recommended that patients wear their Cerezen™ inserts while bathing, swimming or in a moist environment such as a steam bath or sauna. It is recommended that the Cerezen™ inserts be removed when participating in contact sports. Go to www.cerezen.com for a full list of precautions and warnings.
